

## 1. Identification

| Product identifier                                     | MSE  |  |  |
|--|--|--|--|
| Other means of identification                          | None.  |  |  |
| Recommended use  | Not available.   |  |  |
| <b>Recommended restrictions</b>                        | None known.  |  |  |
| Manufacturer/Importer/Supplier/Distributor information |  |  |  |
| Manufacturer:  | Ergon Asphalt & Emulsions, Inc.                            |  |  |
| Address:   | 2829 Lakeland Drive  |  |  |
|  | Jackson, MS 39232  |  |  |
| Website:   | www.ergonasphalt.com                                       |  |  |
| Telephone:   | 1-800-222-7122 (Customer Service)                          |  |  |
| E-mail:  | sds@ergon.com  |  |  |
| 24 hour Emergency<br>(CHEMTREC):                       | North America 1-800-424-9300; International 1-703-527-3887 |  |  |

## 2. Hazard(s) identification

| Physical hazards                             | Not classified.  |
|--|--|
| Health hazards                               | Not classified.  |
| Environmental hazards                        | Not classified.  |
| OSHA defined hazards                         | Not classified.  |
| Label elements                               |  |
| Hazard symbol                                | None.  |
| Signal word                                  | None.  |
| Hazard statement                             | The mixture does not meet the criteria for classification.                     |
| Precautionary statement                      |  |
| Prevention                                   | Observe good industrial hygiene practices.                                     |
| Response                                     | Wash hands after handling.   |
| Storage                                      | Store away from incompatible materials.  |
| Disposal                                     | Dispose of waste and residues in accordance with local authority requirements. |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.  |
| Supplemental information                     | None.  |

# 3. Composition/information on ingredients

#### Mixtures

| Chemical name          | Common name and synonyms | CAS number | %       |
|------------------------|--------------------------|------------|---------|
| ASPHALT                |                          | 8052-42-4  | 50 - 70 |
| WATER                  |                          | 7732-18-5  | 20 - 40 |
| HYDROCHLORIC ACID      |                          | 7647-01-0  | < 2     |
| Other components below | reportable levels        |            | 5.02    |

## 4. First-aid measures

| Inhalation   | If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing.<br>Call a physician if symptoms develop or persist.  |
|--------------|---|
| Skin contact | If clothing sticks to the skin, do not remove. Lotion or hand cream may aid in the removal of asphalt. Wash contact areas with soap and water. If needed, seek medical attention.                   |
| Eye contact  | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists. |

| Ingestion  | Rinse mouth. DO NOT induce vomiting. Get medical attention immediately. If ingestion of a large amount does occur, call a poison control center immediately.  |  |  |
|--|---|--|--|
| Most important<br>symptoms/effects, acute and<br>delayed                     | Direct contact with eyes may cause temporary irritation.  |  |  |
| Indication of immediate<br>medical attention and special<br>treatment needed | Treat symptomatically.  |  |  |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.  |  |  |
| 5. Fire-fighting measure   | S   |  |  |
| Suitable extinguishing media   | Foam. Dry chemical powder. Carbon dioxide (CO2).  |  |  |
| Unsuitable extinguishing media   | Water. Do not use water jet as an extinguisher, as this will spread the fire.   |  |  |
| Specific hazards arising from the chemical                                   | During fire, gases hazardous to health may be formed:   |  |  |
| Special protective equipment<br>and precautions for<br>firefighters          | Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Structural firefighters protective clothing will only provide limited protection.  |  |  |
| Fire fighting<br>equipment/instructions                                      | ALWAYS stay away from tanks engulfed in flame. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Move containers from fire area if you can do so without risk. In the event of fire, cool tanks with water spray.   |  |  |
| Specific methods   | In the event of fire and/or explosion do not breathe fumes. In the event of fire, cool tanks with water spray.  |  |  |
| General fire hazards   | No unusual fire or explosion hazards noted.   |  |  |
| 6. Accidental release measures   |   |  |  |
| Personal precautions,<br>protective equipment and<br>emergency procedures    | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. For personal protection, see section 8 of the SDS.  |  |  |
| Methods and materials for  | This product is miscible in water.  |  |  |
| containment and cleaning up  | Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and  |  |  |
|  | place into containers. Prevent entry into waterways, sewer, basements or confined areas.  |  |  |
|  | place into containers. Prevent entry into waterways, sewer, basements or confined areas.<br>Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to<br>remove residual contamination.   |  |  |

## 8. Exposure controls/personal protection

#### **Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit At this time, the other constituents have no known exposure limits.

| Components                           | Туре  | Value   |                 |  |

# 10. Stability and reactivity

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport  |
|---------------------------------------|---|
| Chemical stability                    | Material is stable under normal conditions.   |
| Possibility of hazardous<br>reactions | Hazardous polymerization does not occur.  |
| Conditions to avoid                   | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials. |
| Incompatible materials                | Strong oxidizing agents.  |
| Hazardous decomposition<br>products   | No hazardous decomposition products are known.  |

## **11.** Toxicological information

### Information on likely routes of exposure

| Inhalation   | Prolonged inhalation may be harmful.                     |
|--|--|
| Skin contact   | No adverse effects due to skin contact are expected.     |
| Eye contact  | Direct contact with eyes may cause temporary irritation. |
| Ingestion  | Expected to be a low ingestion hazard.                   |
| Symptoms related to the physical, chemical and toxicological characteristics | Direct contact with eyes may cause temporary irritation. |

## Information on toxicological effects

| 13. Disposal considerations              |   |  |                                    |  |  |  |
| Disposal instructions                    | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose in accordance with all applicable regulations. No components are identified as hazardous wastes. Disposal recommendations are based on uncontaminated material.            |  |                                    |  |  |  |
| Local disposal regulations               | Dispose in accordance with all applicable regulations.  |  |                                    |  |  |  |
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company. Not applicable.  |  |                                    |  |  |  |
| Waste from residues /<br>unused products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). Avoid discharge into water courses or onto the ground. |  |                                    |  |  |  |
| Contaminated packaging                   | Empty containers should be taken to an approved waste handling site for recycling or disposal.<br>Since emptied containers may retain product residue, follow label warnings even after container is<br>emptied.  |  |                                    |  |  |  |

## 14. Transport information

#### DOT

Not regulated as dangerous goods.

#### ΙΑΤΑ

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

Transport in bulk according to Not established. Annex II of MARPOL 73/78 and the IBC Code
