# SAFETY DATA SHEET

#### 1. Identification

**Product identifier** SC2200 Series Part B Coating and Lining (All Colors)

Other means of identification Not available. Synonym(s) R3400, R3900 Recommended use Not available. **Recommended restrictions** None known.

Manufacturer/Importer/Supplier/Distributor information

**Manufacturer** 

**Company Name Ergon Armor** 

**Address** 1655 Harbor Avenue

Memphis, TN 38113

USA

**Telephone** 1-800-222-7122 Website www.ergonarmor.com E-mail sds@ergon.com

**Emergency 24-hour** phone number

CHEMTREC: North America 1-800-424-9300 International 1-800-527-3887

**Information on operation** 8:00 a.m. to 5:00 p.m.

# 2. Hazard(s) identification

**Physical hazards** Not classified.

**Health hazards** Acute toxicity, dermal Category 4

> Skin corrosion/irritation Category 2 Serious eye damage/eye irritation Category 2 Sensitization, skin Category 1

**Environmental hazards** Not classified. **OSHA** defined hazards Not classified.

**Label elements** 

Signal word Warning

**Hazard statement** Harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction. Causes

serious eye irritation.

**Prevention** Wear protective gloves. Wear eye/face protection. Avoid breathing mist or vapor. Avoid release to the environment. Wash thoroughly after handling. Use personal protective equipment as required.

Do not handle until all safety precautions have been read and understood. Obtain special

instructions before use. Contaminated work clothing should not be allowed out of the workplace.

Response Specific treatment see Section 4 of this SDS. IF exposed or concerned: Get medical

advice/attention. IF ON SKIN: Wash with plenty of soap and water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Take off contaminated clothing and wash before reuse. If eye irritation persists: Get medical advice/attention. If skin irritation or rash occurs: Get medical advice/attention. Collect

spillage.

Storage Store locked up.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise

classified (HNOC)

None known.

**Supplemental information** Not applicable.

# 3. Composition/information on ingredients

#### **Mixtures**

SDS US

Chemical name	Common name and synonyms	CAS number	%
BENZYL ALCOHOL		100-51-6	10 - 20
2,4,6-TRIS(DIMETHYLAMINOMETH YL)PHENOL		90-72-2	1 - 8
PHENOL		108-95-2	1 - 5
TRIENTINE		112-24-3	1 - 5
[(DIMETHYLAMINO)METHYL]PHEN OL		25338-55-0	< 5

Other components below reportable leve	els		68.15512

#### 4. First-aid measures

Skin contact

**Inhalation** Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or

> artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other

proper respiratory medical device. Call a physician or poison control center immediately.

Remove contaminated clothing immediately and wash skin with soap and water. Call a physician or poison control center immediately. Chemical burns must be treated by a physician. For minor skin contact, avoid spreading material on unaffected skin. Wash contaminated clothing before reuse.

Wash clothing separately before reuse.

**Eye contact** Immediately flush eyes with plenty of water for at least 15 minutes. If a contact lens is present, DO

NOT delay irrigation or attempt to remove the lens. Continue rinsing. Call a physician or poison

control center immediately.

**Ingestion** Call a physician or poison control center immediately. If swallowed, rinse mouth with water (only if

the person is conscious). Never give anything by mouth to a victim who is unconscious or is having convulsions. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Do not use mouth-to-mouth method if victim ingested the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other

proper respiratory medical device.

Most important symptoms/effects, acute and delayed

**Indication of immediate** 

medical attention and special treatment needed

Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may

include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including

**General information** Ensure that medical personnel are aware of the material(s) involved, and take precautions to

protect themselves. Show this safety data sheet to the doctor in attendance.

blindness could result. May cause an allergic skin reaction. Dermatitis. Rash.

#### 5. Fire-fighting measures

Suitable extinguishing media

**Unsuitable extinguishing** 

media

Water fog. Alcohol foam. Foam. Dry chemical powder. Carbon dioxide (CO2).

Water. Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from

the chemical

Fire may produce irritating, corrosive and/or toxic gases.

**Special protective equipment** and precautions for firefighters

Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask.

Fire-fighting

equipment/instructions

In the event of fire, cool tanks with water spray. Use water spray to cool unopened containers. Cool containers exposed to flames with water until well after the fire is out. Water runoff can cause

environmental damage.

**Specific methods General fire hazards**  In the event of fire, cool tanks with water spray. Use water spray to cool unopened containers.

No unusual fire or explosion hazards noted.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Fully encapsulating, vapor protective clothing should be worn for spills and leaks with no fire. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

# Methods and materials for containment and cleaning up

Extinguish all flames in the vicinity. This product is miscible in water.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

**Environmental precautions** 

Never return spills in original containers for re-use. For waste disposal, see section 13 of the SDS. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

# 7. Handling and storage

**Precautions for safe handling** 

Do not handle until all safety precautions have been read and understood. Do not get this material in contact with eyes. When using do not eat or drink. Do not get this material in contact with skin. Do not taste or swallow. Avoid prolonged exposure. Use personal protective equipment as required. Do not get this material on clothing. Observe good industrial hygiene practices. Do not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling.

Conditions for safe storage, including any incompatibilities

Store locked up. Store away from incompatible materials (see Section 10 of the SDS). Keep away from food, drink and animal feedingstuffs.

# 8. Exposure controls/personal protection

## **Occupational exposure limits**

Components	Value	Determinant	Specimen	Sampling Time
PHENOL (CAS 108-95-2)	250 mg/g	Phenol with	Creatinine in	*

 $<sup>\</sup>ensuremath{^*}$  - For sampling details, please see the source document.

#### **Exposure guidelines**

**US - California OELs: Skin designation** 

PHENOL (CAS 108-95-2) Can be absorbed through the skin.

**US - Minnesota Haz Subs: Skin designation applies** 

PHENOL (CAS 108-95-2) Skin designation applies.

**US - Tennesse OELs: Skin designation** 

PHENOL (CAS 108-95-2) Can be absorbed through the skin.

Material name: SC2200 Series Part B Coating and Lining (All Colors) 5086 Version #: 01 Issue date: 05-12-2015

**US ACGIH Threshold Limit Values: Skin designation** 

PHENOL (CAS 108-95-2) Can be absorbed through the skin.

**US NIOSH Pocket Guide to Chemical Hazards: Skin designation** 

PHENOL (CAS 108-95-2) Can be absorbed through the skin.

**US WEEL Guides: Skin designation** 

TRIENTINE (CAS 112-24-3) Can be absorbed through the skin.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

PHENOL (CAS 108-95-2) Can be absorbed through the skin.

**Appropriate engineering** 

Provide adequate ventilation, including appropriate local extraction, to ensure that the defined

controls

occupational exposure limit is not exceeded.

Individual protection measures, such as personal protective equipment

Chemical goggles and face shield are recommended. Eye/face protection

**Hand protection** Wear appropriate chemical resistant gloves.

Skin protection

Other Skin protection should include disposable chemical resistant coveralls with hoods. Hand protection

should include appropriate chemical resistant disposable gloves, such as nitrile rubber.

Respiratory protection should include at a minimum a fullface air purifying respirator (APR) with Respiratory protection

> combination particulate (P100) and organic vapor (OV) cartridges. A full-face APR has an assigned protection factor (APF) of 50, as designated by OSHA. As a substitute, a PAPR with a loose-fitting

hood could be used as respiratory protection.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

**General hygiene** considerations

Do not get in eyes. Do not get this material in contact with skin. Do not get this material on clothing. Wash hands before breaks and immediately after handling the product. Keep away from

food and drink.

# 9. Physical and chemical properties

**Appearance** Liquid. **Physical state** Liquid. **Form** Liquid. Color Light yellow Odor Sulphurous. **Odor threshold** Not available. pН Not available.

Melting point/freezing point Initial boiling point and

# 10. Stability and reactivity

**Reactivity**The product is stable and non-reactive under normal conditions of use, storage and transport.

**Chemical stability** Stable at normal conditions.

**Possibility of hazardous** 

reactions

Hazardous polymerization can occur with elevated temperatures.

**Conditions to avoid** Avoid temperatures exceeding the flash point. Contact with incompatible materials.

Incompatible materials Acids. Alkaline metals. Amines. Peroxides. Fluorine. Chlorine. Phenols. Strong acids, alkalies and

oxidizing agents.

**Hazardous decomposition** 

products

Toxic gas. If product is burned hazardous gases such as oxides of carbon and nitrogen and various

hydrocarbons may be produced. Upon combustion, oxides of chlorine may be released.

# 11. Toxicological information

#### Information on likely routes of exposure

IngestionExpected to be a low ingestion hazard.InhalationProlonged inhalation may be harmful.

**Skin contact** Causes skin irritation. Harmful in contact with skin.

**Eye contact** Causes eye irritation.

Symptoms related to the physical, chemical and toxicological characteristics

Irritation of eyes and mucous membranes.

# Information on toxicological effects

**Acute toxicity**

<sup>\*</sup> Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation Irritating and may cause redness and pain.

Serious eye damage/eye

irritation

Direct contact with eyes may cause temporary irritation.

Respiratory or skin sensitization

**Respiratory sensitization** Not available.

Skin sensitization May cause sensitization by skin contact.

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are

mutagenic or genotoxic.

This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. This product Carcinogenicity

contains crystalline silica. Silica is a known carcinogen; however in this encapsulated form the

normal routes of exposure are unavailable.

IARC Monographs. Overall Evaluation of Carcinogenicity

PHENOL (CAS 108-95-2) 3 Not classifiable as to carcinogenicity to humans.

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

This product is not expected to cause reproductive or developmental effects. Reproductive toxicity

Specific target organ toxicity

- single exposure

Not classified.

Specific target organ toxicity

- repeated exposure

Not classified.

**Aspiration hazard** Not available.

**Chronic effects** Prolonged inhalation may be harmful.

12. Ecological information

**Ecotoxicity** Harmful to aquatic life. Components of this product are hazardous to aquatic life. Accumulation in

aquatic organisms is expected.

**Product Species Test Results**

**Bioaccumulative potential** No data available.

Partition coefficient n-octanol / water (log Kow)

BENZYL ALCOHOL 1.1 **PHENOL** 1.46

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

**Disposal instructions** Dispose of contents/container in accordance with local/regional/national/international regulations.

> This product, in its present state, when discarded or disposed of, is not a hazardous waste according to Federal regulations (40 CFR 261.4 (b)(4)). Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria

for hazardous waste.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

**US RCRA Hazardous Waste U List: Reference** 

PHENOL (CAS 108-95-2) U188

Waste from residues /

unused products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product

residues. This material and its container must be disposed of in a safe manner (see: Disposal

instructions).

Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or disposal.

Since emptied containers may retain product residue, follow label warnings even after container is

emptied. Offer rinsed packaging material to local recycling facilities.
