SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Name of the substance: HyPrene 60
Identification number: 649-466-00-2 (Index number)
Registration number: 01-2119480375-34
Synonyms: None.
Issue date: 18-July-2018
Version number: 02
Revision date: 27-March-2019
Supersedes date: 18-July-2018

1.2. Relevant identified uses of the substance or mixture and uses advised against

Uses advised against: None known.

1.3. Details of the supplier of the safety data sheet

MANUFACTURER: Ergon, Inc.
P.O. Box 1639
Jackson, MS 39181 USA

EU Contact: Ergon International, Inc.
Drève Richelle 161 Building C
B-1410 Waterloo, Belgium

Emergency Phone Numbers:
US Customer Service: + 1-800-222-7122
Chemtrec: + 1-800-424-9300 After Business Hours (North America)
+ 1-703-527-3887 (International)
See Section 15 for additional CHEMTREC Hotline Numbers

E-mail: sds@ergon.com

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The substance has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards
Aspiration hazard Category 1
H304 - May be fatal if swallowed and enters airways.

Hazard summary
May be fatal if swallowed and enters airways.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains:
Distillates (petroleum), hydrotreated light naphthenic

Hazard pictograms

Signal word: Danger

Hazard statements
H304 May be fatal if swallowed and enters airways.
Precautionary statements

Prevention
P260 Do not breathe gas/fumes/vapour/spray.

Response
P301 + P310 IF SWALLOWED: Immediately call a POISON CENTRE or doctor/physician.
P331 Do NOT induce vomiting.

Storage
P405 Store locked up.

Disposal
P501 See section 13 of this SDS for disposal instructions. Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information
2.3. Other hazards
None known.

SECTION 3: Composition/information on ingredients

3.1. Substances

SECTION 4: First aid measures

General information
Contact physician if discomfort continues.

4.1. Description of first aid measures

Inhalation
Move to fresh air. Oxygen or artificial respiration if needed. IF exposed or concerned: Get medical advice/attention.

Skin contact
Wash contact areas with soap and water. Remove contaminated clothing. Launder contaminated clothing before reuse. If skin irritation or an allergic skin reaction develops, get medical attention.

Eye contact
Flush thoroughly with water. If irritation occurs, get medical assistance.

Ingestion
Do NOT induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Call a poison control centre immediately.

4.2. Most important symptoms and effects, both acute and delayed
Defatting of the skin.

4.3. Indication of any immediate medical attention and special treatment needed
Treat symptomatically.

SECTION 5: Firefighting measures

General fire hazards
No unusual fire or explosion hazards noted.

5.1. Extinguishing media

Suitable extinguishing media
Halon. Dry chemicals. Foam. Carbon dioxide (CO2). Water spray or fog. Do not use water jet as an extinguisher, as this will spread the fire.

Unsuitable extinguishing media
Do not use a solid water stream as it may scatter and spread fire.

5.2. Special hazards arising from the substance or mixture
No unusual fire or explosion hazards noted.

5.3. Advice for firefighters

Special protective equipment for firefighters
Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask.

Special fire fighting procedures
Cool containers exposed to flames with water until well after the fire is out. Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Use pressurised air mask if product is involved in a fire.
SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
Keep unnecessary personnel away. Local authorities should be advised if significant spillages cannot be contained. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

For emergency responders
Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions

Prevent further leakage or spillage if safe to do so. Prevent entry into waterways, sewer, basements or confined areas. Avoid discharge to the aquatic environment. Contact local authorities in case of spillage to drain/aquatic environment. Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up

Large Spills: ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills in original containers for re-use.

6.4. Reference to other sections

For personal protection, see section 8. For waste disposal, see section 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Do not breathe dust/fume/gas/mist/vapours/spray. Wash hands after handling and before eating. Avoid prolonged exposure. All handling to take place in well-ventilated area. Shower after work. Remove and wash contaminated clothing promptly.

7.2. Conditions for safe storage, including any incompatibilities
Store locked up. Keep away from heat, sparks and open flame.

7.3. Specific end use(s)
Not available.

SECTION 8: Exposure controls/personal protection

**Biological limit values**

No biological exposure limits noted for the ingredient(s).

**Recommended monitoring procedures**

Not available.

**Derived no effect levels (DNELs)**

Not available.

**Predicted no effect concentrations (PNECs)**

Not available.

### 8.2. Exposure controls

Provide adequate ventilation, including appropriate local extraction, to ensure that the defined occupational exposure limit is not exceeded.

**Individual protection measures, such as personal protective equipment**

**General information**

Not available.

**Eye/face protection**

Goggles/face shield are recommended.

**Skin protection**

- **Hand protection**

  Chemical resistant gloves are recommended. If contact with forearms is likely wear gauntlet style gloves. When prolonged or frequent repeated contact occurs, Nitrile gloves may be suitable. (Breakthrough time of > 240 minutes.) For incidental contact/splash protection Neoprene, PVC gloves may be suitable.

- **Other**

  Chemical/oil resistant clothing is recommended. Launder contaminated clothing before reuse.

**Respiratory protection**

Under normal conditions, respirator is not normally required. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. No respiratory protection is ordinarily required under normal conditions of use. In accordance with good industrial hygiene practices, precautions should be taken to avoid breathing of material. If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, select respiratory protection equipment suitable for the specific conditions of use and meeting relevant legislation. Check with respiratory protective equipment suppliers. Where air-filtering respirators are suitable, select an appropriate combination of mask and filter. Select a filter suitable for combined particulate/organic gases and vapours [boiling point >65 °C (149 °F)] meeting EN14387.

**Thermal hazards**

Not available.

**Hygiene measures**

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear that cannot be cleaned.

**Environmental exposure controls**

Not available.

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

**Appearance**

Clear & bright

**Physical state**

Liquid.

**Form**

Liquid.

**Colour**

colorless to slight yellow tint

**Odour**

Mild Petroleum Odor

**Odour threshold**

Not available.

**pH**

Not applicable

**Melting point/freezing point**

-63 °C (-81.4 °F) ASTM D5950/ISO 3016

**Initial boiling point and boiling range**

284 °C (543.2 °F) ASTM D86/ ISO 3294

**Flash point**

143,0 °C (289,4 °F) Pensky-Martens Closed Cup ASTM D93/ ISO 2719

153,0 °C (307,4 °F) Cleveland open cup ASTM D92/ ISO 2592

**Evaporation rate**

Not available.
Flammability (solid, gas) Not available.

Auto-ignition temperature > 315,56 °C (> 600 °F) ASTM E659
Decomposition temperature Not available.
Viscosity 9,34 cSt (40 °C (104 °F) ASTM D445/ISO 3104)
Explosive properties Not available.
Oxidising properties Not available.

SECTION 10: Stability and reactivity

10.1. Reactivity Strong oxidising agents.
10.2. Chemical stability Stable.
10.3. Possibility of hazardous reactions Hazardous polymerisation does not occur.
10.4. Conditions to avoid Avoid temperatures exceeding the flash point.
10.5. Incompatible materials Strong oxidising agents.
10.6. Hazardous decomposition products Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

SECTION 11: Toxicological information

General information Not available.
Information on likely routes of exposure

| Inhalation | May be fatal if swallowed and enters airways. |
| Skin contact | Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis. |
| Eye contact | May be irritating to eyes. |
| Ingestion | May cause gastrointestinal discomfort if swallowed. Do not induce vomiting. Vomiting may increase risk of product aspiration. May be fatal if swallowed and enters airways. |

11.1. Information on toxicological effects

Acute toxicity Not applicable.
Skin corrosion/irritation May cause defatting of the skin, but is neither an irritant nor a sensitizer.
Serious eye damage/eye irritation Not classified. May cause minor irritation on eye contact.
Respiratory sensitisation Not classified.
Skin sensitisation Not classified. May cause defatting of the skin, but is not an irritant.
Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. Nota L - Meets EU requirement of less than 3% (w/w) DMSO extract for total polycyclic aromatic compound (PAC) using IP 346.

Hungary. 26/2000 EüM Ordinance on protection against and preventing risk relating to exposure to carcinogens at work (as amended)

Distillates (petroleum), hydrotreated light naphthenic (CAS 64742-53-6)
Reproductive toxicity Contains no ingredient listed as toxic to reproduction
Specific target organ toxicity - single exposure Not classified.
Specific target organ toxicity - repeated exposure
- Not classified.

Aspiration hazard
- May be fatal if swallowed and enters airways.

Mixture versus substance information
- Not available.

Other information
- Risk of chemical pneumonia after aspiration.

SECTION 12: Ecological information

12.1. Toxicity
- Not expected to be harmful to aquatic organisms.

12.2. Persistence and degradability
- Not inherently biodegradable.

12.3. Bioaccumulative potential
- Bioaccumulation is unlikely to be significant because of the low water solubility of this product.

Partition coefficient n-octanol/water (log Kow)
- Not established.

Bioconcentration factor (BCF)
- Not available.

12.4. Mobility in soil
- Not available.

12.5. Results of PBT and vPvB assessment
- Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects
- No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste
- Dispose of in accordance with local regulations. Avoid discharge into water courses or onto the ground.

Contaminated packaging
- Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Offer rinsed packaging material to local recycling facilities.

EU waste code
- Not applicable. Waste codes should be assigned by the user based on the application for which the product was used.

Disposal methods/information
- Disposal recommendations are based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal.

SECTION 14: Transport information

ADR
- 14.1. - 14.6.: Not regulated as dangerous goods.

RID
- 14.1. - 14.6.: Not regulated as dangerous goods.

ADN
- 14.1. - 14.6.: Not regulated as dangerous goods.

IATA
- 14.1. - 14.6.: Not regulated as dangerous goods.

IMDG
- 14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
- Not available.

General information
- Not regulated as dangerous goods.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations
- Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended
  - Not listed.
  - Not listed.
Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended
Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended
Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended
Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended
Not listed.

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA
Not listed.

Authorisations
Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended
Not listed.

Restrictions on use
Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended
Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended.
Not listed.

Other EU regulations
Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended
Not listed.

Other regulations
The product is classified and labelled in accordance with EC directives or respective national laws.
This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006.

National regulations
Germany: WGK 1

15.2. Chemical safety assessment
No Chemical Safety Assessment has been carried out.
