

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier	
Name of the substance	HyPrint 70E
Identification number	649-466-00-2 (Index number)
Registration number	01-2119480375-34
Synonyms	None.
1.2. Relevant identified uses o	f the substance or mixture and uses advised against
Identified uses	Pigments; Printing Inks
Uses advised against	None known.
1.3. Details of the supplier of t	he safety data sheet
MANUFACTURER:	Ergon, Inc.
	P.O. Box 1639
	Jackson, MS 39181 USA
EU Contact:	Ergon International, Inc.
	Drève Richelle 161 Building C
	B-1410 Waterloo, Belgium
Emergency Phone Numbers:	
US Customer Service:	+ 1-800-222-7122
CHEMTREC:	+ 1-800-424-9300 After Business Hours (North America)
	+ 1-703-5273887 (International),
	+32-28083237 (Belgium)
	+33-975181407 (France)
	+49-69643508409 (Germany)
	+39-0245557031 (Italy)
	+34-931768545 (Spain)
E-mail:	sds@ergon.com

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The substance has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health	hazar	ds
Asp	iration	hazard

Category 1

H304 - May be fatal if swallowed and enters airways.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains:

Hazard pictograms

Signal word	Danger
Hazard statemen	ts
H304	May be fatal if swallowed and enters airways.
Precautionary staten	nents
Prevention	
P260	Do not breathe gas/fumes/vapour/spray.
Response	
P301 + P310 P331	IF SWALLOWED: Immediately call a POISON CENTRE/doctor. Do NOT induce vomiting.

Storage	
P405	Store locked up.
Disposal	
P501	See section 13 of this SDS for disposal instructions. Dispose of contents/container in accordance with local/regional/national/international regulations.
Supplemental label information	None.
2.3. Other hazards	This substance does not meet vPvB / PBT criteria of Regulation (EC) No 1907/2006, Annex XIII. The substance is not considered to have endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. The substance is not included in the list established in accordance with REACH Article 59(1) for having endocrine disrupting properties.
SECTION 3: Composition	/information on ingredients

3.1. Substances

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
Distillates (petroleum), hydrotreated light naphthenic	<=100	64742-53-6 265-156-6	01-2119480375-34	649-466-00-2	
Classification:	Asp. Tox. 1	;H304			

SECTION 4: First aid measures

General information Contact physician if discomfort continues.

4.1. Description of first aid measures Inhalation Move to fresh air. Oxygen or artificial respiration if needed. IF exposed or concerned: Get medical advice/attention. Skin contact Wash contact areas with soap and water. Remove contaminated clothing. Launder contaminated clothing before reuse. If skin irritation or an allergic skin reaction develops, get medical attention. Eye contact Flush thoroughly with water. If irritation occurs, get medical assistance. Do NOT induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of Ingestion aspiration. Call a poison control centre immediately. 4.2. Most important Defatting of the skin. symptoms and effects, both acute and delayed 4.3. Indication of any Treat symptomatically. immediate medical attention and special treatment needed

SECTION 5: Firefighting measures

General fire hazards	No unusual fire or explosion hazards noted.
5.1. Extinguishing media Suitable extinguishing media	Halon. Dry chemicals. Foam. Carbon dioxide (CO2). Water spray or fog.
Unsuitable extinguishing media	Do not use a solid water stream as it may scatter and spread fire.
5.2. Special hazards arising from the substance or mixture	No unusual fire or explosion hazards noted.
5.3. Advice for firefighters	
Special protective equipment for firefighters	Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask.
Special fire fighting procedures	Cool containers exposed to flames with water until well after the fire is out. Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Use pressurised air mask if product is involved in a fire.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures For non-emergency Not available. personnel

For emergency responders	Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.
6.2. Environmental precautions	Prevent further leakage or spillage if safe to do so. Prevent entry into waterways, sewer, basements or confined areas. Avoid discharge to the aquatic environment. Contact local authorities in case of spillage to drain/aquatic environment. Avoid discharge into drains, water courses or onto the ground. If this material is spilled into navigable waters and creates a visible sheen, it is reportable to the National Response Center.
6.3. Methods and material for containment and cleaning up	Large Spills: ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills in original containers for re-use.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13.
SECTION 7: Handling and	l storage
7.1. Precautions for safe handling	Do not breathe dust/fume/gas/mist/vapours/spray. Wash hands after handling and before eating. Avoid prolonged exposure. All handling to take place in well-ventilated area. Shower after work. Remove and wash contaminated clothing promptly.
7.2. Conditions for safe	Use care in handling/storage. Keep away from heat, sparks and open flame. Store in a

storage, including any well-ventilated place.

7.3. Specific end use(s) Observe industrial sector guidance on best practices.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

. Exposure controls		
propriate engineering Itrols	Provide adequate ventilation, occupational exposure limit is	, including appropriate local extraction, to ensure that the defined s not exceeded.
lividual protection measur	es, such as personal protect	tive equipment
General information	Personal protection equipment with the supplier of the person	nt should be chosen according to the CEN standards and in discuss onal protective equipment.
Eye/face protection	Goggles/face shield are recor	mmended. Eye protection should meet standard EN 166.
Skin protection		
- Hand protection	Chemical resistant gloves are	e recommended. If contact with forearms is likely wear gauntlet sty
	gloves. When prolonged or fi (Breakthrough time of > 240	requent repeated contact occurs, Nitrile gloves may be suitable.) minutes.) For incidental contact/splash protection Neoprene, PVC r suitable gloves tested to EN374.
- Othor		-
- Other	Chemical/oil resistant clothin	g is recommended. Launder contaminated clothing before reuse.

Respiratory protection	Under normal conditions, respirator is not normally required. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. No respiratory protection is ordinarily required under normal conditions of use. In accordance with good industrial hygiene practices, precautions should be taken to avoid breathing of material. If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, select respiratory protection equipment suitable for the specific conditions of use and meeting relevant legislation. Check with respiratory protective equipment suppliers. Where air-filtering respirators are suitable, select an appropriate combination of mask and filter. Select a filter suitable for combined particulate/organic gases and vapours [boiling point >65 °C (149 °F)] meeting EN14387.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear that cannot be cleaned.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. Fume scrubbers, filters or engineering modifications to the process equipment may be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

9.1. Information on basic phys	ical and chemical properties	
Physical state	Liquid.	
Form	Liquid.	
Colour	Water White to Pale yellow	
Odour	Mild Petroleum Odor	
Melting point/freezing point	-57 °C (-70,6 °F)	
Boiling point or initial boiling point and boiling range	> 226,67 °C (> 440 °F) ASTM D2887/ ISO 3294	
Flammability	Will burn if involved in a fire.	
Flash point	158,0 °C (316,4 °F) Cleveland open cup 148,0 °C (298,4 °F) Pensky-Martens Closed Cup ASTM D93	
Auto-ignition temperature	> 315,56 °C (> 600 °F)	
Decomposition temperature	The property has not been measured.	
рН	The property has not been measured.	
Kinematic viscosity	The property has not been measured.	
Solubility		
Solubility (water)	The property has not been measured.	
Partition coefficient (n-octanol/water) (log value)	Not established.	
Vapour pressure	The property has not been measured.	
Density and/or relative density		
Relative density	0,894 (15,56 °C (60 °F) ASTM D4052/ ISO 12185)	
Vapour density	> 5	
Particle characteristics		
Particle size	Not applicable, material is a liquid.	
9.2. Other information		
9.2.1. Information with regard to physical hazard classes	No relevant additional information available.	
9.2.2. Other safety characteris	tics	
Viscosity	12,5 cSt (40 °C (104 °F) ISO 3104)	
SECTION 10: Stability and reactivity		
10.1. Reactivity	Strong oxidising agents.	
10.2. Chemical stability	Stable.	
10.3. Possibility of hazardous reactions	Hazardous polymerisation does not occur.	
10.4. Conditions to avoid	Avoid temperatures exceeding the flash point.	
10.5. Incompatible materials	Strong oxidising agents.	

Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular

weight hydrocarbons.

10.6. Hazardous

decomposition products

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely rout	es of exposure
Inhalation	May be fatal if swallowed and enters airways.
Skin contact	Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis.
Eye contact	May be irritating to eyes.
Ingestion	May cause gastrointestinal discomfort if swallowed. Do not induce vomiting. Vomiting may increase risk of product aspiration. May be fatal if swallowed and enters airways.
Symptoms	Defatting of the skin. Exposure may cause temporary irritation, redness, or discomfort. Coughing. Shortness of breath. Discomfort in the chest.
	· · · · ·

11.1. Information on toxicological effects

Acute toxicity

Not	201	plica	hla	
INUL	av	uica	DIC.	

Acute toxicity	Not applicable.		
Components	Species	Test Results	
Distillates (petroleum), hydrotrea	ted light naphthenic (CAS 64742-53

Oral			
LD50	Rat	> 5000 mg/kg	
Not available. * Estimates fo	r product may be based on addition	al component data not shown.	
Skin corrosion/irritation	Irritating to skin.		
Serious eye damage/eye irritation	Not classified. May cause minor irritation on eye contact.		
Respiratory sensitisation	Not classified.	Not classified.	
Skin sensitisation	Not classified.		
Germ cell mutagenicity	Chilean Spanish went out in Job 18-0024189, French and German were reviewed under 17-0023466 and Hindi under 17-0023485		
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. Meets EU requirement of less than 3% (w/w) DMSO extract for total polycyclic aromatic compound (PAC) using IP 346.		
Hungary. 26/2000 EüM C at work (as amended)	Ordinance on protection against	and preventing risk relating to exposure to carcinogens	
Not listed.			
Reproductive toxicity	Contains no ingredient listed as	toxic to reproduction	
Specific target organ toxicity - single exposure	Causes central nervous system effects.		
Specific target organ toxicity - repeated exposure	Not classified.		
Aspiration hazard	May be fatal if swallowed and er	iters airways.	
Mixture versus substance information	Not available.		

11.2. Information on other hazards

Endocrine disrupting properties	This substance does not have endocrine disrupting properties with respect to human health, as it does not meet the assessment criteria laid out in Regulations (EC) No 1907/2006, (EU) No 2017/2100 and (EU) 2018/605.
	2017/2100 and (20) 2010/005.

Other information Risk of chemical pneumonia after aspiration.

SECTION 12: Ecological information

12.1. Toxicity	Based on available data, the classification criteria are not met for hazardous to the aquatic environment.
12.2. Persistence and degradability	Not inherently biodegradable.
12.3. Bioaccumulative potential	Bioaccumulation is unlikely to be significant because of the low water solubility of this product.

Partition coefficient n-octanol/water (log Kow)	Not established.
Bioconcentration factor (BCF)	Not available.
12.4. Mobility in soil	Not available.
12.5. Results of PBT and vPvB assessment	This substance does not meet vPvB / PBT criteria of Regulation (EC) No 1907/2006, Annex XIII.
12.6. Endocrine disrupting properties	This substance does not have endocrine disrupting properties with respect to the environment, as it does not meet the assessment criteria laid out in Regulations (EC) No 1907/2006, (EU) No 2017/2100 and (EU) 2018/605.
12.7. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste	Dispose of in accordance with local regulations. Avoid discharge into water courses or onto the ground.
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Offer rinsed packaging material to local recycling facilities.
EU waste code	Not applicable. Waste codes should be assigned by the user based on the application for which the product was used.
Disposal methods/information	Disposal recommendations are based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal.

SECTION 14: Transport information

ADR

14.1. - 14.6.: Not regulated as dangerous goods.

RID

14.1. - 14.6.: Not regulated as dangerous goods.

ADN

14.1. - 14.6.: Not regulated as dangerous goods.

ΙΑΤΑ

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Maritime transport in
bulk according to IMO
instrumentsNot available.General informationNot regulated as d

on Not regulated as dangerous goods.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended Not listed.

Regulation (EU) 2019/1021 On persistent organic pollutants (recast), as amended Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA Not listed.

Authorisations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended Not listed.

Restrictions on use		
Regulation (EC) No. 1907, amended	/2006, REACH Annex XVII Substances subject to restriction or	n marketing and use as
Not listed.		
Directive 2004/37/EC: on mutagens at work, as amo	the protection of workers from the risks related to exposure t ended.	o carcinogens and
Distillates (petroleum), h	ydrotreated light naphthenic (CAS 64742-53-6)	
Other EU regulations		
Directive 2012/18/EU on	major accident hazards involving dangerous substances, as an	nended
Not listed.		
Other regulations	The product is classified and labelled in accordance with Regulation (Regulation) as amended. This Safety Data Sheet complies with the re No 1907/2006, as amended. Directive 2012/18/EU on major accident hazards involving dangerous Part 2 (Named dangerous substances) - 34. Petroleum products and	equirements of Regulation (EC) substances:
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended. Germany: WGK 1	
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.	
International Inventories		
Country(s) or region	Inventory name	On inventory (yes/no)*
Australia	Australian Inventory of Industrial Chemicals (AICIS)	Yes
Canada	Domestic Substances List (DSL)	Yes
Canada	Non-Domestic Substances List (NDSL)	No
China	Inventory of Existing Chemical Substances in China (IECSC)	Yes
Europe	European Inventory of Existing Commercial Chemical Substances (EINECS)	Yes
Europe	European List of Notified Chemical Substances (ELINCS)	No
Japan	Inventory of Existing and New Chemical Substances (ENCS)	Yes
Korea	Existing Chemicals List (ECL)	Yes
New Zealand	New Zealand Inventory	Yes
Philippines	Philippine Inventory of Chemicals and Chemical Substances (PICCS)	Yes
Taiwan	Taiwan Chemical Substance Inventory (TCSI)	Yes
United States & Puerto Rico	Toxic Substances Control Act (TSCA) Inventory	Yes

*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s) A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).
